Granite Display

Help your customers simplify the edge selection process with this impressive tool. Featuring 12 of the most popular profiles and two countertop color choices - use the Countertop Edge Visualizer to find the right edge for your style or purpose.

Found at [msistone.com](http://msistone.com) on the Visualizer Tools page - second row, on the left. You have the ability to view the whole countertop or zoom in to really see the edge detail. Shown right are just a few examples.
