

BIGGER IS HERE

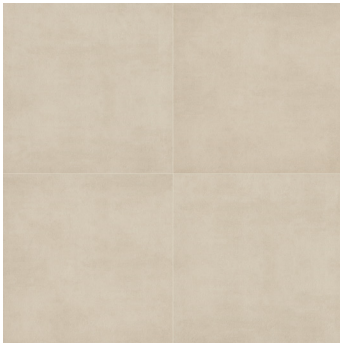

INTRODUCING NEW 36" X 36" ARTERRA PORCELAIN PAVERS

Arterra is expanding its porcelain paver collection with a new oversized 36" x 36" format—designed to meet the growing demand for large-format hardscape surfaces. At nearly twice the size of a traditional 24" x 24" paver, this new format creates a cleaner, more modern aesthetic with fewer joints and a greater sense of scale.

The new 36" x 36" size is now available in two stunning new colors, Zement Nacar and Zement Blanco, while also expanding two of our most popular designs, True Bluestone and Fossil Snow. Whether you're designing a contemporary patio, pool deck, rooftop terrace, or outdoor living space, the new 36" x 36" Arterra pavers deliver the premium look and expansive feel today's homeowners, designers, and contractors are seeking.

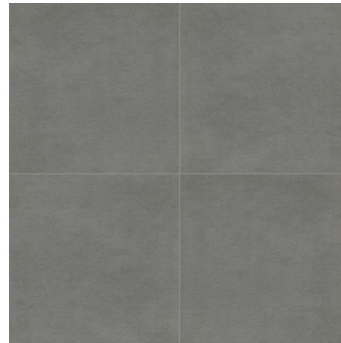

Zement Nacar
