FIREGLASS

MSI's Fireglass adds brilliance and color to exterior and interior installations. Made to withstand extreme heat & weather conditions, these tempered glass stones are ideal for fireplaces and firepits, landscape designs, gardens, and aquariums – without emitting any soot, ash, or harmful chemicals. Perfectly designed to catch and reflect light, Fireglass delivers an elevated design aesthetic, and is perfect for covering unsightly pipes or hardware visible on gas fireplaces and firepits. Transform water features and aquariums into a shimmering paradise. With endless creative design applications, MSI's Fireglass is sure to charm!
