

Layer on the texture for a high-style look

Natural stacked stone panels bring tactile and architectural details to walls you'll love. Create a statement look by transforming an ordinary wall into a stunning feature wall with one of these beauties.

Add vivid textures and deep tones to your natural stone by using **Miracle 511 Seal & Enhance**. 511 Sealer and Enhancer is a solvent-based formula designed for superior color enhancement and protection for any natural stones. Approved for interior and exterior use and is freeze/thaw resistant.

Rockmount M-Series stacked stone panels

M-Series Stacked Stone panels are thinner and smaller than the standard stacked stone panels, measuring 4.5" x 16" (1/2 sqft) versus the rull 6" x 24" (1 sqft) panls. M-Series stacked stone panels are designed to fit perfectly in the standard 18" kitchen backsplash height without cutting. M-Series Stacked Stone panels can be used Indoors or Outdoors. And since no grouting is required, it can be installed in just one day.
