ROCKMOUNT STACKED STONE PANELS

f there's one collection designers are raving over, this is it. Our **Rockmount Stacked Stone Panel Collection** includes full sized 6"x24" panels as well as smaller 4.5"x16" **M-Series Stacked Stone Panels**. Both ledger panel lines come in an inspirational array of looks and finishes—refined rustic to contemporary chic, split-faced to 3D honed—in stones such as marble, slate, travertine, and quartzite. A natural choice for outdoor applications such as barbeque surrounds, planter walls, and architectural features, these from-the-Earth beauties are equally enchanting indoors giving backsplashes, accent walls, fireplace facades, and other vertical applications unmistakable character. In addition, all Rockmount stacked stone panels are modular in design, which allows for groutless, seamless installation.

M SERIES PANEL

M Series Stacked Stone panels are thinner and smaller than the standard stacked stone panels, measuring 4.5" x 16" (1/2 sqft) versus the full 6" x 24" (1 sqft) panels. M Series stacked stone panels are designed to fit perfectly in the standard 18" kitchen backsplash height without cutting.
