What is Rockmount Veneers?

Rockmount Veneers are high-quality natural stone loose veneers, engineered for efficient installation and long-lasting performance in a variety of wall applications.

- **Installer-friendly:** Designed with masons in mind for easier handling and installation.
- **Improved adhesion:** Grooved backs increase surface contact for superior bonding to substrates.
- **Efficient layout:** Stones are pre-arranged in crates to reflect the recommended wall pattern, simplifying installation.
- **Flats:** Each crate contains 100 sq. ft., organized into 10 tightly packed 10 sq. ft. layers.
- **Corners:** Sold in crates containing 50 linear feet.
